## special features of our mattress range...

### BLU COOL MEMORY FOAM™

NEW Blu Cool Memory Foam™ has been developed to combat the heat standard memory foam generates. This new foam allows it to be cooler with same unique properties of memory foam but without the heat, SO LESS HEAT! MORE COOL!

### TALALAY LATEX

Talalay Latex has a resilient feel and is a very durable product. The anti-microbial properties of latex are also ideal for allergy sufferers. The natural elasticity of latex recovers shape immediately when pressure is removed for perfect support.

### GEL FEEL FOAM

Our high quality Gel Feel® Foam has been developed to provide a 'unique gel feel' with optimum pressure relief and body support. This durable layer is also faster cooling and the low heat retention supports quality sleep.

### BUG GUARD

Fabric treated with Bug Guard prevents dust mites and bed bugs. Bug Guard is made from natural Eucalyptus Oils and is environmentally friendly.

Kingsfield House, Arthur Street, Barwell, Leicestershire LE9 8GZ.
